Product Data Sheet

Product Name: SUEDERAL LT 2010 /2020
Sales Number: 30809720
Customer Material Code: H19219

February 28, 2024

The following specifications apply to sealed, unopened containers stored under the recommended conditions for the duration of the shelf life.

SENSORY DATA

APPEARANCE	CLEAR LIQUID
COLOR	PALE YELLOW TO YELLOW
ODOR	CONFORMS TO STANDARD

ANALYTICAL DATA

RELATIVE DENSITY D20/4	0.9872 - 0.9972
RELATIVE DENSITY D20/20	0.9890 - 0.9990
RELATIVE DENSITY D25/25	0.9860 - 0.9960
REFRACTIVE INDEX, 20C	1.5022 - 1.5122
REFRACTIVE INDEX ND25	1.5002 - 1.5102

ADMINISTRATIVE DATA

SHELF LIFE	12 MONTHS
STORAGE CONDITIONS	COOL DARK AND DRY AREA (50-70F / 10-21C)
STATE OF MATTER	LIQUID
FLASH POINT	> 100 °C / > 212 °F

RECOMMENDED HANDLING CONDITIONS: IFF recommends that this product be handled under the following conditions. Some products may require additional care.

PACKING: IFF containers are all suitable for storage. If repacking is necessary, we recommend brown or amber glass, aluminum (not reusable), plastic drums, or steel drums with epoxy phenolic lining. Two coats of phenolic resin with total film thickness of 0.8 - 1.1 mm as measured by the GE Dry Film Gauge Tester are recommended. Damaged steel drums should be inspected, as cracked linings could result in iron contamination of the product.

HEADSPACE: All materials should be stored in full containers with minimal headspace. If some material is used, it is recommended to transfer the balance to a smaller approved container to obtain minimal headspace and/or apply a nitrogen blanket. These recommendations are for storage only; please check your local regulations for transportation conditions.

STORAGE: If storage is anticipated for a period longer than 6 months, keep product as cold as possible and away from direct sunlight.
